

Writing numbers

A good way of learning how to correctly form numbers is by using a rhyme. Try using the following rhyme. Start at the green dot and go in the direction of the green arrow. Stop when you get to the red dot.

Good luck!

Down you run and One is done

Around and down and out go you, that's the way to make a Two

Round and round just like a bee, that's the way to make a Three

Down across and down once more, that's the way to make a Four

Short neck, belly fat, number Five wears a hat

Around and down in a circle you go. That's a Six just like you know

Straight across, slide down from heaven, that's the way to make a seven

First a snake and then come back straight, that's the way to make an Eight

First a ball and then a line, that's the way to make a Nine
